

Dear Representative:

I am urging you to support Congressman Xavier Becerra's proposed One Social Security Act H.R.3150, which would prevent the impending 20 percent cut to Social Security disability benefits that mean life or death to many recipients, including me.

As a voter in your district and someone who relies on Social Security disability to make ends meet, I am writing to tell you that I have a right to collect my full Social Security disability benefits. I've worked and paid my taxes to fund my benefits. It is my insurance policy that I've purchased when I could work, and it should be there for me when I cannot. You should know that though they are not much, they are my income to survive. I rely on these benefits and I cannot see them reduced.

I am asking you to stand up for my rights to receive my full benefits and support Congressman Xavier Becerra's proposed One Social Security Act H.R.3150. It is your responsibility as a representative to stand up for your constituents' rights. Please stand up for mine.

Sincerely,

Your concerned citizen
